A.O.B

Latest Updates - 1

I. Colombia-LAC

- Work started with Log Cluster Prep at regional level
- Data collection started in Colombia although facing issues at to how to involve everyone (advices provided)
- The PM got in contact with USAID Rep for LAC who offered support in coordination actions for ESUPS in the region. Also had a discussion about STOCKHOLM/PALM and CALM to be followed up

II. Madagascar – PIROI

- Country engagement on ESUPS process confirmed by Government
- Data collection started => **Attached to this minutes is a template email to share with your country office. The same will be shared for other countries to trigger a concerted effort in data collection**

III. Nepal

- National Prepo confirmed by Government and national log cluster using ESUPS documents reports and tools
- Update is ongoing and should be finished by End of May to provide a ready report by the start of the typhoon season
- Discussion with the National DM IT system (BIPAD) about inter-operability of STOCKHOLM

Latest Updates - 2

IV. HELIX

- Joint presentation was given together with Save the Children on Localisation of supply chains and pre-positioning
- Co hosted by Vietnam Gvt, the **PM will follow up with the co-host as one of our target country**

V. GCCG – Shelter – NFI

- 3 meetings to present the Item group functionality and offer to take a lead role in that.
- NFI working group of the global shelter cluster to come back to us
- Need to **start engaging with the other clusters**

VI. STOCKHOLM

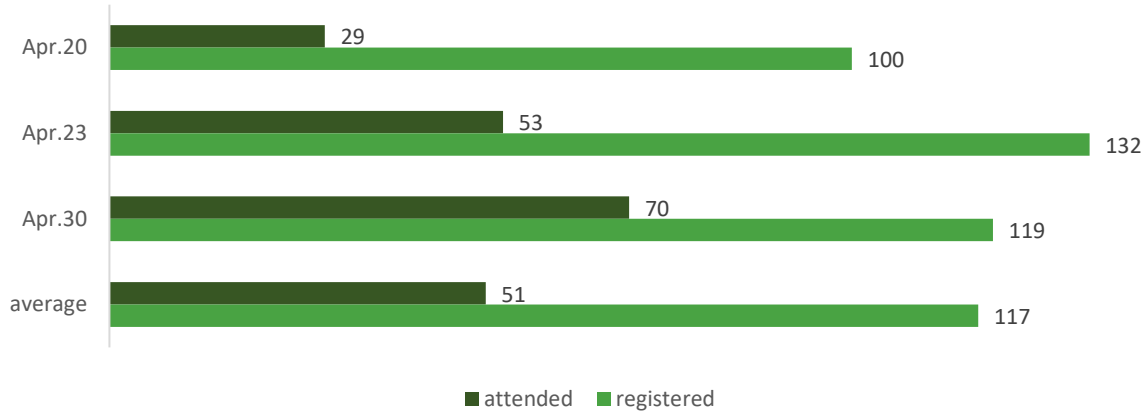

- Procurement still ongoing, currently stuck at donor level but should be moving soon.
- Few meetings with Log cluster Prep unit, Nepal DM department or Madagascar Gvt about the Inter-operability of STOCKHOLM

VII. IFRC opportunity

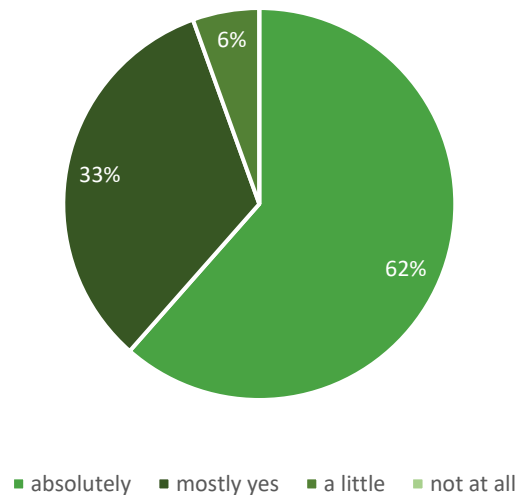

- The IFRC is looking at a tool to map their National Societies pre-positioned stocks and STOCKHOLM could be a potential pilot to be tested before developing their own system. Pending internal decision.

OTHER POINTS TO BE DISCUSSED/ updated

Research Study presentation by Ozyegin University including the difference between Nominal figures outputs and relative figures output.

The presentation is attached, and **we'll need to make a decision as to if and how we present the outcomes.**

In order to fine tune the study the researchers need the information sent in the Excel table attached to this PPP.
